Though the weather is cloudy and raining cats & dogs—the students seems to enjoy all through the day. Rainy day is always a happy day for the students. Each student was provided with a soap, a tooth paste and a tooth brush. This program helps the students to keep their teeth clean and enjoy a healthy health which are pre-requisite for higher school attendance. This also creates awareness among the students and makes it a regular cleaning habit.

The students were very happy to receive the toiletries. Thanks to **Rima Rached & MBC Group Staffs** for donating toiletries for 500 Slum Children.

### Student gets new teeth

23 June 2010. A Student, Marjia Akter (12) Class-3, Section-B, of The Dhaka Project broke her two Upper anterior incisor (front teeth). The incident took place about a year ago while she was playing with her mates. Marjia Akter fell on the ground—teeth first. Later she visited The Dhaka Project Health Care Centre. Dr. Md. Amirul Islam, Dental Surgeon of TDP decided to give her teeth a new Porcelain Crown (Cap) which will look like as it was before.

After the new Porcelain Crown (cap) was placed on her teeth it appears her own teeth grew and took it's shape. Marjia Akter is now very happy, she will not have to worry about her teeth anymore. Her parent's are also happy. New Porcelain Crown (cap) setting is a very costly treatment. The Dhaka project Dental Section checks all student within six months interval (twice a year).
